

Smart Imaging Workshop Hosted by NBIL@Superlab

Explore Intelligent Imaging! JOBS Workshop and Microscopy Course

Day 1: NIS-Elements JOBS and Image Analysis Training

Get hands-on experience learning how to design custom experiments by combining image acquisition, analysis and control of external devices. Visual programming features remove the need for advanced data programming knowledge!

Day 2: Nikon Microscopy and Automated Imaging Course

Apply the skills you learned on Day 1 during our instruments course! We will explore the NIS-Elements automation routines on the ECLIPSE Ji Digital Microscope, ECLIPSE Ni-E Slide Scanning Module, and ECLIPSE Ti2-E with AX-Confocal.

November 18th & 19th 2025

09:30 – 16:00

NBIL Basel, Superlab Suisse,
Hochbergerstr. 60 I, 4057 Basel
